

Gather the Women Vision Statement

Gather the Women Global Matrix™ (GTW) is a worldwide sisterhood that connects women through Circles, creating safe space to share our true selves. In Circles, we find our voices, reclaim our power and remember our self-worth. We celebrate our unique diversity as well as the rising of the Divine Feminine, leading to personal and planetary transformation.

Gather the Women Circle Principles

These Principles are for you to reference with any GTW Circle you are a part of.

- GTW Circles welcome diverse perspectives, offer a sacred center to hold space for the Spirit of the circle and an intentional rim to embrace the energy created.
- GTW Circles encourage the use of a talking piece for each sister's voice or her silence to be heard. We practice deep listening and refrain from side conversations and comments.
- A Circle offers a safe place to share personal experiences.
- A Circle guardian may use a sounding device to call for a pause for moments of reflection and to re-center the Circle.
- GTW acknowledges that there is a leader in every chair and each sister is responsible for the health of the Circle.
- Personal information shared in GTW Circles remains confidential.
- GTW Leadership understands that ours is not the only way or better way; ours is simply another way.
